Human Health - Health and Human Development

There are three aspects of social development in childhood. This course will discuss why play is important, learning is intense, and social rules and acceptable behavior are learned in this stage. This course will also discuss chromosomes which are the structures that contain genes. You will learn that humans have 23 pairs of chromosomes and that genes determine physical characteristics in relation to a person's body shape, rate of maturation, and body size.

Modules Studied

Module 1: Human development

Module 2: Environmental and inherited factors affecting health

Module 3: Family and community resources

Module 4: Assessment
